

IEVA Student Day 2026

For the third year running IEVA Irish Equine Veterinary Association presents its well established and successful IEVA Student at Osborne Hall, Irish National Stud, Co. Kildare on Friday 3rd April 2026

This educational day is tailored specifically for veterinary students. In previous year, the day attracted a large number of veterinary students from Ireland and further afield, including many of the European based veterinary colleges.

Yet again a stellar programme of expert speakers and topics has been curated. This full day programme covers a wide range of topics, including equine asthma, endocrine disease, laminitis, from both a veterinary and farriery perspective, examination of the placenta, field anaesthesia as well as equine dentistry. Speakers on the day include Sarah Ross, Sean Rooney, Bridget McGing, Carmel Welsh and Pat O'Sullivan

The day includes lunch, courtesy of the Japanese Garden Café and an opportunity to avail of a tour of the Irish National Stud.

Open to both Veterinary Students and Veterinary Nurses.
